

Federal Communications Commission

§ 61.133

(d) A tariff for international services offered by a carrier that is subject to detariffing for domestic, interstate, interexchange services, may reference other documents or instruments concerning the carrier's detariffed domestic, interstate, interexchange service offerings. A tariff for international services may contain such a reference if, and only if, it is necessary to incorporate information regarding the carrier's detariffed domestic, interstate, interexchange services in order to calculate discounts and minimum revenue requirements for international services provided in combination with detariffed domestic, interstate, interexchange services. Notwithstanding any such reference to documents or instruments concerning the carrier's detariffed domestic, interstate, interexchange service offerings, a tariff for international services shall specify rates, terms and conditions for the international service.
